SUMMARY

Final-year bachelor student in Information Technology at OsloMet with hands on experience in software development, web applications, databases, and software testing. Experienced with C#, .NET Core, Java, Python, SQL, and Git through academic and team-based projects. Also experienced in student support and coordination through roles as a Student Assistant/Orakel, Student Representative, and Orakel Coordinator.

EDUCATION

B.Sc. in Information Technology, OsloMet University, Norway

Aug 2024 – June 2027

TECHNICAL SKILLS

Programming: C#, Java, Python, JavaScript, C, SQL

Web: HTML, CSS, .NET, Spring Boot, Bootstrap

Data & AI: Pandas, NumPy, Matplotlib, Scikit-learn, regression, classification, ML

Tools: Git/GitHub, Docker, Entity Framework Core, Figma

Currently learning: React, Kotlin

PROJECTS

❖ Automated Software Test Generation using LLMs (TDDxLLM)

- Compared testing approaches including standard TDD, batch TDD, and oracle-grounded TDD.
- Evaluated generated tests using pass rate, mutation score, code complexity, and statistical analysis.
- Evaluated 9 locally hosted LLMs across 164 programming tasks.

❖ Javapunk Code Runners, Quiz & Learning Platform

C#, .NET Core, Entity Framework Core, SQL, React

- Developing a web-based learning and quiz platform for Java education as part of a team project.
- Building backend functionality using .NET Core and Entity Framework Core.
- Implementing user management, quizzes, modules, scoring, and database functionality.
- Working collaboratively through Git and GitHub.

❖ Web Development & UX Project

HTML, CSS

- Developed two frontend websites, an improved OsloMet website and a personal concept website.
- Worked on and developed the concept website for a yoga studio from idea to implementation. Used principles from UX/UI and responsive design.

❖ Concert Ticket Verification System

Java, Spring Boot, HTML, CSS

- Developed a simple prototype web application for concert ticket verification.
- Implemented user authentication and login using session management.
- Built a REST API for ticket verification and ID validation, and frontend for real time feedback.

❖ Interactive Birthday Quiz

HTML, CSS, JavaScript

- Developed an interactive quiz as a part of a personal birthday gift with question navigation, progress tracking, and dynamic JavaScript-based UI.

❖ Personal Portfolio Website (Ongoing)

HTML, CSS, JavaScript

- Developing a responsive portfolio website to showcase projects, technical skills, and experience.

WORK EXPERIENCE

Airport Security, Avarn Security Aviation

Feb 2024 – Present

- Work in airport security and border control in a customer-facing, high-responsibility environment.
- Perform security checks and assist passengers while following established procedures.

Student Representative, OsloMet University, Norway

Aug 2024 – Present

- Represent students and communicate feedback between students and academic staff.
- Contribute to discussions on courses, teaching, and the student learning environment.

Student Assistant / Orakel, OsloMet University, Norway

Jan 2026 – Present

- Provide academic and technical support to students in programming and related IT courses.
- Explain technical concepts and assist with problem solving.

Coordinator for Orakel, OsloMet University, Norway

Aug 2026 – Present

- Coordinate and manage monthly schedules for the student assistants.
- Serve as a communication link between university administration and student assistants.

HACKATHONS & ADDITIONAL EXPERIENCE

Oslo Student Hub × NITO Hackathon 2025

Winner

- Developed a data-driven solution for identifying optimal data-center locations and presented the solution as a team.
- Combined creative problem solving, and teamwork to address a real-world infrastructure challenge.

Co Create Hackathon 2026

- Collaborated on a health-technology case and contributed to developing a survivor buddy-system concept for breast cancer patients in remission.

Student Communities:

- DITIO (founding member), KIT (member)

JavaZone, Volunteer

- Supported the organization and execution of a major technology conference in Oslo.
